

The image displays the GX Works3 software interface. The main window shows a ladder logic diagram with various logic gates and coils. A variable declaration table is visible, listing variables like 'input1', 'input2', 'input3', 'output1', 'output2', 'output3', 'output4', 'output5', 'output6', 'output7', 'output8', 'output9', 'output10', 'output11', 'output12', 'output13', 'output14', 'output15', 'output16', 'output17', 'output18', 'output19', 'output20', 'output21', 'output22', 'output23', 'output24', 'output25', 'output26', 'output27', 'output28', 'output29', 'output30', 'output31', 'output32', 'output33', 'output34', 'output35', 'output36', 'output37', 'output38', 'output39', 'output40', 'output41', 'output42', 'output43', 'output44', 'output45', 'output46', 'output47', 'output48', 'output49', 'output50', 'output51', 'output52', 'output53', 'output54', 'output55', 'output56', 'output57', 'output58', 'output59', 'output60', 'output61', 'output62', 'output63', 'output64', 'output65', 'output66', 'output67', 'output68', 'output69', 'output70', 'output71', 'output72', 'output73', 'output74', 'output75', 'output76', 'output77', 'output78', 'output79', 'output80', 'output81', 'output82', 'output83', 'output84', 'output85', 'output86', 'output87', 'output88', 'output89', 'output90', 'output91', 'output92', 'output93', 'output94', 'output95', 'output96', 'output97', 'output98', 'output99', 'output100'. The project tree on the right shows the structure of the project, including the main program and various modules.
